Power Products

Reliability. Durability. Fail-safe. AVT's diverse line of Power Products are carefully designed and calculated to meet the needs of critical environments through sensitive data collection. Long-lasting and trustworthy, our products replicate the functionality of the OEM brand.

- Two-way Radio Batteries • Portable Scanner and Printer Batteries
- NANO Fuel Cells • OEM Battery Chargers • PCB Design

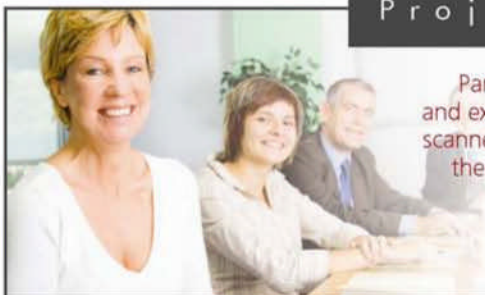

Audio Communications Products

When lives are at stake, large publicly-funded organizations and private companies alike know they can rely on AVT to provide quality communications products which consistently perform and accommodate budget concerns. You will find accessories in our range that suit the work environments and operational needs of most radio users. We'll build accessories from your specifications that suit your individual needs.

- Two-way Radio Accessories • OEM/ODM Audio Products • Bluetooth and Proprietary Wireless
- Isolated Worker Alarm System • Audio Components

Project and Consulting Services

Partner with AVT to experience the dynamic results that come from meticulous planning, design, and execution in the manufacture of portable power solutions for two-way radios, portable barcode scanners, portable printers, audio products and other equipment. Our engineers partner with you at the early stages of design, utilizing our product development process to deliver a custom solution.

- Engineering Design & Tooling • Quality System, Assurance and Auditing • Business Consultation • Product Sourcing • Project Management • Global Sales and Marketing

Battery for Two-Way Radio AT-OT0546L

Models

PUMA[®] T3S / T3DM

Compatibility

Battery Model: 978-0546/03.01

Physical Characteristics

Dimension: 112 X 52 X 11mm (4.41 X 2.05 X 0.43 inch)

Weight: Approx.60g

Plastic Material: ABS

Electrical Characteristics

Chemistry: Li-ion

Voltage: 3,7V

Capacity: Typical : 2400mAh

Cell: SANYO UF356450S

Operation Specification

Charging Voltage: 4.2V

Charging Current: 0.1 ~ 1C

Discharging Current: 0.1 ~ 1C

Discharging End Voltage: 3.0 V

User Environment

Charging Temperature: ±0 ~ +40°C (+32 ~ +104°F)

Discharging Temperature: -20 ~ +60°C (-4 ~ +140°F)

Storage Temperature: -20 ~ +50°C (-4 ~ +122°F)

Prolonged Storage Temp.: -20 ~ +30°C (-4 ~ +86°F)
